

## Pelican JUMBO Drywall

Supply and fit Pelican Systems Jumbo drywall partitioning system with an overall thickness of (76/89/127mm) comprising internal framing formed of (51/64/103mm) Jumbo galvanised steel studs fixed at 600mm centres to Jumbo galvanised steel track and Jumbo galvanised steel floor tracks including where necessary any additional galvanised steel studding to form door openings, glazing and other apertures, angles, corners and termination ends.

Internal steel framing to be dressed on both sides with 12mm thick tapered edge Jumbo plasterboard in single lengths to suite height, butt jointed and secured to steel studding with 25mm Jumbo drywall screws at 220mm centres, joints to be tapped and jointed with Jumbo Jointing Compound and prepared for decoration. All exposed aluminium door frames, glazing frames, ceiling and wall channels, battens and skirting are to be formed of (natural anodised/colour anodized/powder coated) aluminium sections.

Installation to be in accordance with SABISA installation guidelines.
