

access panels

Extra over ceiling for Pelican (Flushline / Bottom Hung / Top Hung / In-lay) Access Panel comprising matt white powder coated aluminium T-Frame 580 x 580mm, fitted flush to ceiling with and including screw fixing through frame into JUMBO® Grid / Brandering.

***NOTE:** All ceilings should be installed in accordance with the current code of practice for ceiling installation adopted by the South African Building Interior System Association (SABISA). Care should be taken to ensure that the fixing used for the suspension points should be able to support a safety factor of three times the design load of the ceiling. Suspended ceilings are not designed to take the weight of services personnel walking around on its surface. The ceiling erection should take place at a later stage in the building contract when the area is clean and there is less likelihood of damage from other trades and exposure to the elements.

All installations to be done in accordance with SABISA guidelines.

Specifications are available on Autospec and our website.

Pelican Systems has an ISO 9001 Quality Management System in place and has had continuous certification since 2005.
