

Insulation

JUMBO® Insulation thickness: 50mm / 100mm

SABS Approved - Permit Number 9486/15037

Lay (50mm / 100mm) JUMBO® Insulation on the ceiling ensuring that it fits tightly between the tie beams. JUMBO® Insulation should be cut 50mm wider than the distance between the tie beams. Cut JUMBO® Insulation out around down lights. Cut JUMBO® Insulation out around trap doors. Stick the cut section to the back of the trapdoor using good quality contact adhesive. Wrap JUMBO® Insulation around cold and hot water pipes ensuring there is 10mm overlap. Secure the JUMBO® Insulation using cable ties at 300mm centres.

Thickness	Dimensions	R Value
50mm	10m x 1.2m x 50mm	0.90 - 1.15 m ² K/W
100mm	6m x 1.2m x 100mm	1.75 - 2.20 m ² K/W

All installations to be done in accordance with SABISA guidelines.
Specifications are available on Autospec and our website.
